(pp:33-40) Royal Book Publishing, ISBN: 9789391131197

## About Me

Seeking a challenging position as an **intern**, where is given a chance of proving my skills and abilities in the **Computer Science field as a (Frontend developer)** that offers professional growth while being resourceful, innovative, and flexible. To accomplish my responsibilities to the best of my efficiency and to work hard to achieve organizational objectives.

**Personal Qualities /Skills:** Diligent and organized, ethical, flexible, problem solver, Good communication skills, Leadership quality.

## Experience and Projects

### >>Frontend Intern at Prodiga ai

I worked on the project LayerDapp. My role primarily involved building the UI interface of the protocol named UniswapV3 and integrating uniswapV3. I also worked on making the landing page of LayerDapp.

### >>Campus Ambassador at Cisco

As a Cisco campus ambassador, I facilitate communication between students and Cisco, promoting their technology solutions and organizing events to enhance campus awareness and engagement. I strive to create a bridge between my peers and Cisco's innovations.

### >>Technical Mentor at IEEE-SSIT

- My role is to guide the young mind of youth in the right direction,
- I also take sessions on Tech related topics and
- we organized events like Code2Clone and CodeConfluence.
- worked on our chapter's official website
- Built website for our chapter's event during tech fest Code2Clone.

### >>Open Source Contributor at GirlScript Summer Of Code 2023

Our Team's two projects got selected at this open source festival this year one is **CodeCanvas** based on HTML, CSS, and javascript and the other one is **Games and Go** based on 90's collections of games made using Reactjs.

### >>Senior Core member of IEEE CS,IEEE WIE

### >>Hackathons: Devspace'22

- Agrel - our project during hackathon

One- stop solution that connects farmers, NGOs, and agro-businesses  
A platform that connects the agriculture business and eliminates the need for middle men.

### >>Ideathons

1. **A One Stop - Dynamic Website** which is capable of tracking and logging the information of the Company, the Events Organized, Session Details, Session Times, Moments of Meeting, Member Details and their Progress.

This Website would be accessible only by the members of the company. The user can either log-in as Admin or Member

2. **Uplocal** is a website that will provide a one-stop solution to the infused problems of illiteracy and lack of technical awareness in local areas.
